Swimming Level (eg. Dolphin): _____ Place of Instruction: _____ Unknown: _____

Is Your Child Program Ready?

In order to support the success, safety and inclusion of all individuals registered and participating in Silverheights NA programs, it is important that participants attending these programs are indeed **“Program Ready”**. To assist in determining if a participant is “Program Ready”, the following criteria have been developed:

- Participant is able to take direction and instruction from a staff person
- Participant is comfortable and able to interact in a group environment
- Participant is able to participate in the program. Participation, interaction, and inclusion into programs are based on the child’s individual needs. However, it is asked that the participant can demonstrate the basic skill and participate in up to 50% of the program
- School-aged participants are able to attend school successfully without specialized classroom support
- Participant interacts and participates in the program in a manner that is safe for themselves and others

Participants that are attending a program and who are not demonstrating that they are “Program Ready” may be withdrawn from the program at the sole discretion of full-time supervisory staff.

It is the intention of staff to provide a fun and safe program environment for your child. Program staff has been trained in a variety of behaviour management techniques to encourage positive behaviour and self-discipline. In instances where a child is causing harm to themselves or to someone else or is engaging in unsafe behaviour, staff may be required to intervene or remove your child from the program. All participants need to be “Program Ready”. Our goal is your child’s safety and success!
